Assignment title	Boulevard Animal Clinic Database System Review
Assessor	

Date issued	
Final deadline	
Duration (approx.)	2 hours

Qualification suite covered	Pearson BTEC International Level 2 qualifications in Information Technology
Units covered	Unit 10: Introduction to Database Systems
Learning aims covered	Learning aim C: Review the effectiveness of the database system in line with user requirements

Safety guidance for the teacher	

Scenario	The database system has been designed and developed for *Boulevard Animal Clinic.*
	Before Sam implements the new database, he has asked you to evaluate the success of the database system in meeting user requirements.

Task 1:	Complete a review of the effectiveness of the database and the software tools and techniques used to meet user requirements.
	Your report should cover the following points:
	• how the purpose and requirements of the database were met
	• the constraints of the database
	• how the database fulfilled user needs
	• the use of database software tools and techniques used to meet user requirements
	• strengths and improvements of the database.
	Provide a range of relevant examples of the software tools and techniques used to support your conclusions.
Evidence you must produce for this task	Report with a range of relevant examples to support the conclusions.
